

Performance™ 17 Two-Stage Air Conditioner with Puron® Refrigerant

turn to the experts™ 

Performance
SERIES

As an ENERGY STAR® partner, Carrier Corporation has determined that the Performance 17 air conditioner meets ENERGY STAR guidelines for energy efficiency.

Enhanced Comfort, Tax Credit Eligible Cooling

Things to Consider Before You Buy

Puron® Refrigerant

Puron refrigerant is environmentally sound and won't deplete the ozone layer. Carrier introduced Puron refrigerant a full six years ahead of the competition, paving the way for the future. The Clean Air Act of 1990 prohibits the production of HCFC-based air conditioners and heat pumps by 2010, and bans Freon®-22* production by 2020. As Freon® production reduces, its cost may increase. Freon®-12 in the automotive

industry increased by a whopping 800% in a short seven years following its phase-out! Ensure your cooling costs by investing in systems with Puron refrigerant – environmentally sound, efficient and dependable refrigerant designed for the future. The Carrier® Performance™ 17 two-stage air conditioner with Puron refrigerant delivers excellent reliability and proven performance.

Performance

Carrier specializes in creating a customized home comfort system tailored to your needs with our broad selection of residential heating and cooling products. Your Carrier dealer can help you choose the best system for your home, including a highly efficient and economical Performance 17 two-stage air conditioner and Carrier-exclusive features that further enhance your indoor environment.

- Two-stage cooling allows the Performance 17 air conditioner to provide 17.0 SEER efficiency and quiet, even comfort throughout your home.
- Low-stage cooling a majority of the time delivers a more continuous flow of comfort during typical days.
- High-stage cooling maintains your comfort as outdoor temperatures rise.
- Add a Carrier variable-speed furnace or fan coil and our exclusive Infinity® Control to achieve Ideal Humidity System® technology for even greater moisture control and comfort.

IdealHumidity

High-Efficiency Products and Tax Credits

As a part of the U.S. Government's efforts to reduce energy consumption, the ENERGY STAR® program encourages consumers to purchase highly efficient products. Now, your incentive is even greater as the Performance 17 air conditioner is eligible for U.S. Government tax credits. In addition, your local utility companies may offer additional rebates for purchasing high efficiency systems. Ask your dealer for details about how the tax credit program works and how much you can expect to save on a new Carrier system.

Carrier® Systems for Unmatched Performance

Humidifier replenishes moisture to dry air.

Evaporator Coil allows the refrigerant to absorb heat from the air as it passes over the coil surface. The evaporator coil is located with the indoor unit and is also referred to as the indoor coil.

Furnace provides reliable, high-efficiency heating for long-lasting comfort and energy savings. Available in high-efficiency gas- and oil-based fuel sources.

Air Cleaner improves air quality by removing harmful and irritating airborne pollutants from your home.

Ultraviolet Germicidal Lamp inhibits the growth of contaminants on the indoor coil.

Ventilator combines fresh outdoor air with conditioned indoor air for improved air quality and maximum efficiency – great for today's tightly constructed home.

Zoning sets different temperatures for up to eight different areas of your home for truly customized comfort and enhanced utility savings.

Air Conditioner provides reliable, high-efficiency cooling for long-lasting comfort and energy savings.

Optional Infinity® Control is more than just a thermostat. It's your interface to the Infinity® System, the only system in the industry that allows you to control temperature, humidity, air quality, fan speed and ventilation.

Reliability

At Carrier, your comfort is our business. That's why we have one of the most extensive product research and development facilities in the world. From initial design to final assembly, we monitor product quality throughout all phases of the process. Our exclusive 5-step, 100% run test ensures that every single unit we make exceeds industry expectations and meets the toughest standards of all – yours.

Durability

Neither rain nor hail nor golf or soccer balls can keep a Carrier system from doing its job – it's built tough inside and out.

Outside

- WeatherArmor™ protection and galvanized steel cabinet protect against corrosion and keep your system looking its best for years.
- Louvered coil guard looks great and helps keep your system operating at its best by protecting your coil from rocks, sticks, lawn and sports equipment and more.
- Baked-on powder paint evenly coats all exterior painted surfaces to provide superior rust and corrosion protection.

Inside

- Filter drier removes moisture and debris from refrigerant to protect the compressor and maintain top efficiency and performance.
- Copper Microtube™/aluminum fin coil provides superior corrosion resistance and heat transfer.

Performance
SERIES

Technology

Puron® refrigerant – environmentally sound, and won't deplete the ozone layer.

- 1 Two-stage scroll compressor** – the heart of the air conditioner, the compressor pumps refrigerant through the system.
- 2 Infinity® electronic control board** – works with the Infinity® Control for the ultimate in comfort. “Smart” electronics track previous cycles and automatically select the best settings for maximum comfort and efficiency.
- 3 Copper Microtube™/aluminum fin coil** – transfers heat outside to maximize indoor cooling while resisting corrosion.
- 4 High- and Low-pressure switches** – protect the system from extreme conditions.
- 5 Filter drier** – constantly filters the refrigerant to remove moisture or contaminants that can harm your air conditioner.
- 6 Aerodynamic top** – enhances airflow through the outdoor unit and reduces noisy turbulence.
- 7 WeatherArmor Ultra™ protection package** – combines three design elements that protect your performance:
 - a. Galvanized steel cabinet
 - b. Louvered steel coil guard
 - c. Baked-on powder paint

Limited Warranty

To the original owner, the Carrier® Performance™ 17 two-stage air conditioner is covered by a 10-year parts limited warranty upon timely registration of your new equipment.* Ask your Carrier dealer about optional warranties, which include labor.

* Warranty period is five years if not registered within 90 days. Jurisdictions where warranty benefits cannot be conditioned on registration will automatically receive a 10-year parts limited warranty. See warranty certificate at carrier.com for complete details.

Efficiency

Seasonal Energy Efficiency Ratio or SEER number is like gas mileage. A higher SEER rating means a more energy-efficient air conditioning system. As of mid-January of 2006, the U.S. Department of Energy required home cooling systems to meet a minimum rating of 13.0 SEER. Carrier was one of the first leading air conditioner manufacturers to fully support this environmentally-sound mandate.

- The Carrier® Performance™ 17 two-stage air conditioners are available with efficiency ratings as high as 17.0 SEER.
- As an ENERGY STAR® partner, Carrier Corporation has determined that the Performance 17 two-stage air conditioner that achieves system combinations of 14.5 SEER and 12.0 EER or higher meets ENERGY STAR guidelines for energy efficiency.

Proper sizing and installation of equipment is critical to achieve optimal performance. Split system air conditioners and heat pumps must be matched with appropriate coil components to meet ENERGY STAR criteria. Ask your dealer for details or visit www.energystar.gov.

High-Efficiency Air Conditioners Designed with Your Comfort in Mind

Greater Operational Efficiency

For every \$100 spent to cool your home using a 10.0 SEER air conditioner, a 17.0 SEER air conditioner should cost you approximately \$59. Actual savings will depend on the efficiency of your current system compared to the efficiency of a new system.

Operating cost estimate based on a 3-ton system.

Turn to the Experts

Willis Carrier invented air conditioning in 1902. Over 100 years later, we're proud to say Carrier® systems are trusted in more homes than any other brand.

Carrier continues to be on the forefront of innovative engineering and unsurpassed standards of excellence. So when choosing a home comfort system, you'll want to turn to the experts. Your Carrier dealer will evaluate your home, such as window placement and size, ductwork, other structural specifics and lifestyle to provide a customized indoor comfort plan designed specifically for you. And when you have an expert helping you make an educated decision, you're going to feel more comfortable.
